Development of campus Prashanti Kutiram

After completion of his Ph.D from IISc, **Dr. Hongasandra Rama Rao Nagendra** moved to NASA Marshall Space Flight Centre, USA as Post-Doctoral Research Associate in 1971. He returned to Vivekananda Kendra in 1975 to pursue human engineering as against mechanical engineering.

In search of reality, Dr. H R Nagendra found that the modern science has only touched the physical and creation has many subtle and causal dimensions which ancient Seers of India had fathomed, realized, documented and time tested for its usefulness. So he jumped into this wisdom contained in Upanishads of Yoga and spiritual lore. He was fascinated by the teachings of Swami Vivekananda who brought out this great wisdom in modern terminology and urged to combine the best of the West with the best of the East.

Later on, he was asked by the UGC to bring the wisdom of Yoga to University campuses and the VYASA had 9 campuses in which Yoga centers were established. With the success story growing further the UGC accorded a deemed-to-be University status in 2002 to S-VYASA for which he became the first Vice Chancellor. He has been the guiding force behind the VYASA movement.

He has been instrumental in co-ordinating the efforts of several people to bring up a 35 Acres campus of scenic beauty twenty miles from Bengaluru and 5 kms from Bannerghatta-Jigni-Anekal National Highway. The campus is the developing Head Quarters of S-VYASA with research as the main aim. Prashanti has developed into a 250 bedded indepth research center of yoga of international acclaim called Arogyadhama including Surabhi - a Naturopathy and Ayurveda facility to treat patients and promote positive health with. Prashanti also houses an intensive, holistic 30 beds Cancer Care Center.
